

Installation Guide For A-Frame Banners

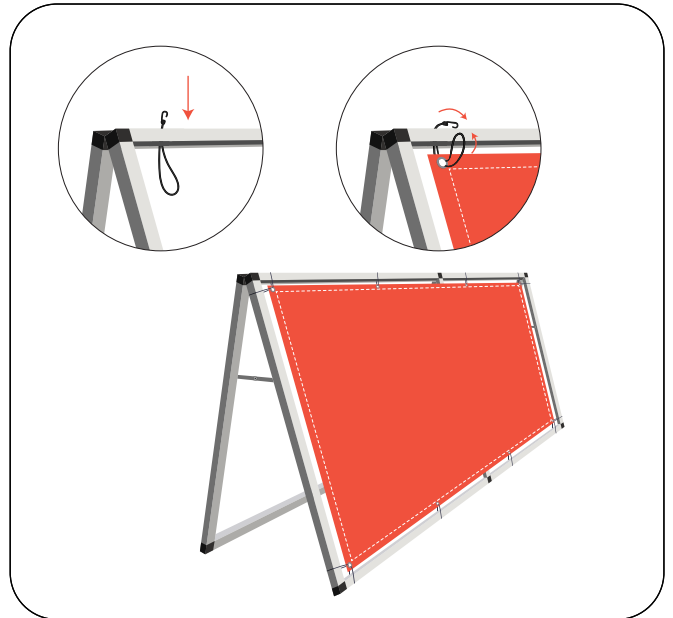

Step 1: Attach the top and bottom joints of the central pole to the horizontal top and bottom poles of the frame (8ft only).

Step 2: Attach the horizontal top and bottom poles of the frame to the side legs of the frame.

Step 3: Open the frame, and make sure the stability arms in the center of the legs are fully extended.

Step 4: Slide the bungee cords between the top horizontal poles, then slide them through the grommets on the banner and hook them securely. Repeat for each grommet.
