

Numbering Positions and CSV File Setup Example

Numbering Areas

CSV Data File

Area 4	Area 5							
00001	00001							
00002	00002							
00003	00003							
00004	00004							
00005	00005							
00006	00006							
00007	00007							
00008	00008							

Column headers indicate which numbering areas will be used. This example uses Areas 4 and 5.
